Summary

Qualified Software Development Engineer with strong full-stack experience in ASP.NET Core, Laravel, and modern frontend technologies. Always eager to learn, adapt, and contribute to building scalable, high-impact software.

Experience

Almuqeet Systems Pvt. Ltd.   Srinagar, J&K(On Site)
Software Development Engineer   Sep 2025 – Present

- Developing scalable enterprise software using Microsoft's Asp Dot Net Fullstack Framework
- Maintaining complex codebases built on Onion/Clean architecture with MVC and CQRS pattern
- Maintaining the Short Message Service Center CPaaS software and developed our RMS system from scratch
- Performing testing on RESTful APIs using postman and swagger
- Writing automated Unit Tests for services with all possible test cases
- Creating User Interfaces using tools like tailwindCSS and Bootstrap with Jquery, ReactJs

CodeYoung   Bengaluru, Karnataka (Remote)
Web Development Mentor   Apr 2025 – Sep 2025

- Guided bright young minds through their coding journey by teaching Web Development, Python, JavaScript, and Java in a structured, engaging learning environment.
- Mentored students on real-world programming concepts, debugging techniques, and best practices to strengthen problem-solving and coding skills.
- Collaborated closely with CodeYoung's development team to enhance the student and mentor portal, improving usability, learning flow, and overall platform experience.

UFK Solutions   Srinagar, J&K (Hybrid)
FullStack Web Developer   Mar 2024 – Apr 2025

- Built responsive user interfaces using Laravel Breeze, Tailwind CSS, Bootstrap, and custom CSS to ensure clean, user-friendly designs.
- Developed and maintained server-side application logic, database interactions, and authentication workflows in Laravel.
- Integrated third-party APIs to enhance application features and external service connectivity.
- Performed automated browser testing using Selenium to ensure application reliability and cross-browser compatibility.

IA-WebTech   Gurugram, Haryana (Remote)
Backend Developer   Nov 2023 – Mar 2024

- Designed and implemented MVC based backend logic and RESTful APIs using Laravel, adhering to clean code and scalable architecture principles.
- Collaborated with the Flutter mobile development team to ensure seamless API integration and data flow between platforms.
- Structured and optimized database schemas in MySQL to support evolving feature requirements and performance goals.
- Conducted thorough API testing and validation using Postman to ensure reliability, accuracy, and security across endpoints

EllMenus   Riyadh, Saudi Arabia (Remote)
Front End Developer   May 2022 – July 2023

- Developed and maintained responsive user interfaces using HTML5, CSS3, Bootstrap, Tailwind CSS, and the Vuexy admin template.
- Translated design mockups into pixel-perfect, cross-browser-compatible web pages with a focus on performance and accessibility.
- Collaborated with backend developers to integrate APIs and ensure seamless frontend functionality.
- Implemented mobile-first responsive design principles to optimize the user experience across all device types.

Technical Skills

Front End Technologies: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, React.js
Programming Languages: C/C++, C#, Java, JavaScript, PHP, SQL, Bash
Frameworks & Libraries: ASP.NET Core, Express.js, Laravel, Yii 2.0
Databases: MySQL, PostgreSQL
Version Control: Git, GitHub
Collaboration & Project Management Tools: Nulab Backlog, Jira
Testing & API Tools: Swagger, Postman, Selenium IDE, Selenium WebDriver

Projects

Hospital Management System   Github
Technologies Used: Asp Dot Net Core, Tailwind CSS, Alpine Js, JQuery, MySQL
An enterprise ready hospital management system web application built with Onion architecture and MVC using microsoft's time tested asp dot net core. Used command query responsibility segregation pattern for maintainability.

Shield IDS Datasets   **Live** | Github
Technologies Used: Laravel, PHP, MySQL, Bootstrap
A metadata management system built for AI/ML research projects, specifically supporting an Intrusion Detection System (IDS) initiative at the University of Kashmir. The application allows researchers and scholars to upload, categorize, and manage datasets efficiently, with a clean Bootstrap-based UI and secure Laravel backend.

AI/ML-Based Bulk Resume Screening (ATS) Tool   Github
Technologies Used: Python, Machine Learning, NLP, Pandas, NumPy, Scikit-learn, Regex, CSV Processing
Built an AI-powered ATS tool to bulk process resumes, extract key information using NLP, and classify resumes into job categories using machine learning models, significantly reducing manual screening time and improving hiring efficiency.

Delivery Dekho   Github
Technologies Used: React, Tailwind CSS, Node.js, Express.js, PostgreSQL, Sequelize, Twilio API
A delivery management web application designed to streamline order placement, rider assignment, and OTP-based delivery verification. The system includes admin dashboards, real-time delivery status, and Twilio integration for sending OTPs. Built as a full-stack application using RESTful APIs and PostgreSQL.

Kashmir Performers Collective   Github
Technologies Used: HTML, CSS, JavaScript, PHP
A lightweight web app for a Kashmir theatre collective to manage festival applications, built with PHP and CSS, using PHPMailer for secure submissions and email notifications.

Hyemath   Live|Github
Technologies Used: HTML, CSS, JavaScript, Email.JS
A static, responsive donation platform for a Kashmir non-profit, built with HTML/CSS and Email.js for contact and donation email handling..

Trainings and Internships

Iflex Technologies   East Delhi, Delhi (OnSite)
Full-Stack Web Development Internship   May 2025 – Aug 2025
- Gained hands-on experience in full-stack development using React, Node.js, Express, and PostgreSQL.
- Worked on building and integrating frontend and backend components in a remote, collaborative environment.

Synthra Labs   Hyderabad, Telangana (Remote)
Web Programming Intern   May 2025 – June 2025
- Assisted in web-based app development while strengthening frontend and backend fundamentals.

UFK Solutions Pvt. Ltd.   Srinagar, J&K (OnSite)
Full-Stack Web Development Internship   May 2023 – July 2023
- Developed and maintained web applications using PHP and Laravel within a 60-day intensive internship.
- Collaborated with team members to implement features and debug application issues.

Internshala   (Online)
Full-Stack Web Development Trainee   Feb 2022 – Mar 2022
- Completed structured training in HTML, CSS, JavaScript, React, MySQL, and PHP.
- Built mini-projects and earned certification (Certificate ID: 5F1563D3-4DDA-4468-E319-9E8DA8893FFF).

Prolific Institute   Srinagar, J&K(On Site)
Front End Development Trainee   Feb 2021 – Mar 2021
- Trained in frontend fundamentals using HTML, CSS, and JavaScript.
- Developed responsive UI components and strengthened core web development concepts.

Education

University of Kashmir   Hazratbal, Srinagar
Master of Technology – Computer Science Engineering [7.5 SGPA]   Nov 2023 – Sep 2025
Zero Backlogs Record
Contributed to the development of ML based Network intrusion detection system, with results documented in a research paper

SSM College of Engineering   Baramulla, J&K
Bachelor of Engineering – Computer Science Engineering [8.4 SGPA]   Aug 2019 – Sep 2023
Zero Backlogs Record
