Objective

To evolve into a highly motivated and skilled web developer with a passion for creating exceptional, user-friendly websites and web applications. Seeking a challenging position where I can leverage my expertise in front-end and back-end development to contribute to the success of a dynamic company. My proficiency in HTML, CSS, JavaScript, and a range of web development tools, coupled with a keen eye for design, enables me to deliver elegant and functional digital solutions. Eager to collaborate with a talented team and apply my problem-solving abilities to drive innovation in web development projects. Committed to staying current with industry trends and best practices, ensuring top-quality results. I am excited to bring my technical acumen, creativity, and dedication to a forward-thinking organization.

Experience

Front-End Web Developer

EllMenus, Riyadh, Saudi Arabia

May 2022 - June 2023

- Developed and maintained web applications for EllMenus, a leading Riyadh-based company in the food and restaurant industry.

- Proficient in Yii 2.0 PHP framework, creating dynamic, user-friendly front-end interfaces.

- Collaborated with cross-functional teams for cohesive web solutions.

- Implemented intuitive, responsive navigation systems.

- Contributed to code reviews, debugging, and troubleshooting.

- Stayed updated with evolving web development trends.

This experience enhanced my web development skills, particularly in Yii 2.0, and contributed to EllMenus' success.
